pointing cables, reports from Boston that spinners had decided upon organized curtailment, realizing, local bear pressure and heavy soiling by arbitrage nouses against purchases in Liverpool, it was estimated that during the first hour arbitrage houses soid fully 100,000 bales in this market, but offerings were absorbed after the initial decline, and when straddle business was withdrawn the market had a sharp advance. December railled from 13.67 to 13.59 and May from 12.75 to 13.59 on covering by early sellers and a renewal of buil support, the latter being encouraged by the posting of storm warnings for the Gulf and reports from Memphis that the completed figures of the National Gluners' Association were even more buillish than the preliminary statement of yesterday. The advance, carrying prices to within 16% points of the session's high records, was followed, however, by a renewal of local bear pressure on the big into-sight and visible supply figures, and the market later in the day was irregular with the close anywhere from 649 points under the top. Tenders of about 10,000 bales were reported on October contracts. Private advices from the South reported no change in the interior spot situation, and the market selficially reported early were about 1-ise, lower 1 1-32c, higher, Further advances were reported in some lines of cetton goods during the day, and it is claimed that Fail River manufacturers are in some instances so far sold shead that they are unable to join immediately in the short-time movement.

Receipts at the ports to-day were \$1,000.

nent.
Receipts at the ports to-day were \$1,103 bales against 77,135 bales last week and 67,805 last year. For the week 410,000 bales against 40,608 last week and 417,075 last year. To-day's receipts at New Orleans 17,250 bales against \$1,050 last year.

SHORTAGE OF CARS
HAS BECOME SERIOUS

BALTIMORE, MD., October 22.—The threatened shortage of coal cars in the mining regions of Maryland and West Virginia is here, and the rall-

west virginia is here, and the rail-roads seem powerless to relieve the situation, according to leaders in the coal trade. Mining operators in those States are calling loudly for cars, but

States are calling loudly for ears, but the only answer the rallroads give is that thousands of new cars and hundreds of new locomotives have been ordered and will be hurried to points where they are most needed as fast as they are received from the builders. How serious the situation has become may be better understood when it is stated that the Consolidation Coal Company is now 100,000 tons behind in its deliveries because of the lack of cars. Other big mining companies in Maryland and West Virginia are declared to be suffering just as much as the Consolidation Coal Company, and for the same reason.

tion on this matter has not been known until within the past few days. It is said that Mr. Kent has reconstructed his original speech, and that if contains much new material.

Congressman McKiniay is described by Mr. Kent himself as probably the best stump speaker of his party in the country. He talks national issues in the main, as a matter of course, but is said to treat the tariff question from a new and novel standpoint.

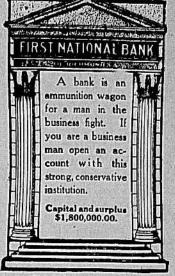

While Captain Kent has never lived in Richmond, he is quite well known in the city, where, for four years, his father, the late Robert C. Kent, presided over the sessions of the State Senate as Lieutenant-Governor during the incumbency of Governor Oferrali.

W. P. KENT.

Richmond Republicans are planning for their most pretentious raily of the campaign at the Jefferson Auditorium to-night, when their candidate for Governor Capitain William P. Kent. and Representative Duncan B. McKinlay, of California, will be the speakers.

It was stated at Republican head-quarters yesterday that no vice-presidents had been named for the mediang, but that a number of representative men of the party in the city would be on the stage.

Captain Kent's appearance in Richmond at this time has attracted much attention because of his recent stand on the prohibition question. His posi-

Review of the Week.

NEW YORK, October 22.—Bradsulfined and industrial developments are largely favorable. Continued cool weather furnishes a marked stimulus to demand for heavy wearing appared dry goods, clothing and shoes, and also benefits demand for hardware, groceries, iumber and building materials at retail in most markets. Demand for coal has been perceptibly quickened for steam sizes. The liquor trades also displayed more life, which may be variously attributed to weather influences or to renewal consumption, made possible by improved pay rolls in general industry. Jobbing trade is good for the season.

AGREEMENT IS REACHED DY RAILWAY COMPANIES

ASHEVILLE, N. C.. October 22.—The Laurinburg and Southern Railroad and the Seahoard Air Line Railway Company receivers having reached an agreement as to the terms by which the tracks of the former shall cross those of the Seaboard at Laurinburg, Attorney Patterson, of Laurinburg, appeared before Judge Pritchard to-day and asked leave to withdraw the potition to force the Seaboard receivers to grant a crossing.

Leave was granted, and counsel for the Laurinburg road and Attorney Shaw, representing the receivers, thun consented to a decree by which the Seaboard tracks shall be crossed at a certain point upon the payment JE 4,000 by the Laurinburg road. The money was paid promptly and the decree became effective.

LAST TRIBUTES ARE PAID TO GREAT EDUCATOR

SPARTANBURG, S. C., October 22.—
A crowd, numbering about 5,000, many or whom had come from all sections of the State, gathered on the campus of Worderd College here this afternoon for the funeral services over the body of Dr. James H. Carlisle, late president smarttus of the institution. President smarttus of the institution, President smarttus of the institution, President sof all the colleges in the State were in attendance, and more than 3,00 school children occupied position on the streets traversed by the funeral procession.

Among the most sincere mounters at the funeral were about 1,000 negroes, who attended the service to honor the memory of one of the greatest friends to the race in the State.

All stores and offices in the city were closed during the hour for the funeral, while the cotton mills also suspended operations that the operatives might attend the services.

Among the curous Christmas presents of this year will be one for a man of national reputation, which has been all year in the making.

Way last January the present was decided upon, and a friend of the prominent gentleman requested the Burrelle Press Clipping Bureau, of New York, to watch every paper in America, and to take up every item which appeared concerning the man.

The clipping bureau people followed instructions, and now present the history of one year in the life of this especial man. The history ends just after election, and the 20,642 newspaper items found include everything from a three-line editorial mention to full-page illustrated stories. These have been mounted on 3,200 great sheets of Irish linen paper and bound into three massive volumes. At the head of each item is the name and date of paper clipped from, this information having been put in with a book typewriter. The words thus inserted amount to 153,852.

In actual time, a very strict record of which has been kept, the work has required sixty-four working days throughout the year, and has kept in employment during that time thirty people as readers, clippers, sorters, mounters and binders. Every newspaper of importance is represented.

This is merely a specimen of some of the unique orders which get into the Bure
